

Children on the move...®

The International Montessori School

Rotselaerlaan 1 and 3
3080 Tervuren

Two interconnected villas with gardens offering Preschool and Primary Education.

The school houses:
Children's House
Primary

Age-ranges:
2 ½ to 6 years old
6 to 11 years old

International Montessori School

Rotselaerlaan 1 and 3
3080 Tervuren

The 'Rotselaerlaan' school consists of 2 large neighbouring villas with interconnecting playgrounds and flower gardens. There is even a hothouse, vegetable garden and chicken coop. The houses are decorated in a friendly, attractive manner and feel like a second home to the children.

Bilingual education is offered to all students. The classrooms are staffed by two teachers, one always speaking English and the other one always speaking French. Because the languages are not only used at an academic level but also in the day to day conversation, at the level of the child, it is amazing to see that children acquire a second language seemingly without effort!

The teachers assist in the development of the whole personality of the child. Whilst being able to use their strengths and preferred learning style, skills are developed simultaneously which helps children build a good self esteem and become adaptable, responsible, interested and motivated.

Musical Intelligence is equally important as the other intelligences. Every Primary child plays an instrument! They can choose between violin, guitar or piano. This brings a very lively and musical touch to the day. This together with participation in theatre productions, influences their stage performance abilities.

Primary students are exposed to a vast and interesting curriculum. They gain knowledge in an integrated manner, since they work interdisciplinary. Our mission is for the children to become abstract thinkers that can look at topics from different points of view. Thereby making decisions that are good for personal circumstances and beneficial to the greater good!

Once students are ready for the Secondary, being the International Baccalaureate Middle Years Programme, they transfer to the school's location in Woluwe. A school bus between these two premises is available for families having a child in the two locations. Door-to-door bus service is also available.

The After School Hour programme is available until 18:00. Children are involved in several workshops such as art and craft, cooking, language courses, dance, gross-motor and free play in the outdoors. Often at pick-up they do not want to go home!
